

Lakeland and PMC provide one of the most comprehensive selections of electrical components, system solutions, and test and measurement equipment in the Midwest. We specialize in providing tailored solutions for water and wastewater treatment facilities, along with the service and support to calibrate, install and maintain your equipment.

For more than 60 years we've provided industrial electrical equipment, electrical control components, valves, enclosures, and test and measurement instruments from suppliers such as ASCO, Siemens, ABB, Honeywell, Yaskawa, Yokogawa, Fluke, and many more.

Solutions to Keep Your Plant Running Smoothly

Lakeland and PMC have the products and services you need to help your plant run more efficiently, extend facility life, and make water and wastewater treatment more reliable and consistent. We offer a full-range of MRO parts, calibration and testing services, and installation and repair.

SOLUTIONS FOR WATER AND WASTEWATER FACILITIES

Lakeland and PMC take pride in the wide range of industry-leading products and solutions we provide. For more than 60 years our team of professional engineers, technicians and support staff have worked tirelessly to cultivate relationships with the very best suppliers in the world.

KEY SUPPLIERS

Honeywell

50,000+ "Microswitch" products with complete offering of switches and sensors.

Standard and custom enclosures, weldments and wireway.

Motor controls, VFDs, sensing devices, automation controllers, PLCs, SCADA software.

Fluid control, RedHat solenoid valves, miniature valves, cylinders, actuators.

Timers, controllers, counters and relays.

IP speed dome cameras, IP cameras, video recorders.

SIEMENS

We are a VS2 partner and have access to the full suite of Siemens products.

AC drives and motor control products.

Motor control and circuit protection products.

Electrical control and protection, motor control drives and VFDs.

Rotational speed monitoring solutions.

Process control, sensors, HMI, panel meters, switches, routers, and more.

Industry leader for DIN-rail mounted, switched-mode power supplies.

Cutler-Hammer

Motor controls, VFDs, circuit protection devices.

Explosion proof enclosures.

HMIs, PLCs, power supplies, motor control products, relays and pilot devices.

Temperature sensor assemblies, with connector heads for water and wastewater treatment applications.

Fillerfans, cooling units, chillers, heat exchangers and more.

IS barriers, barcode scanners, photoelectric and proximity sensors.
