

Lakeland Engineering Equipment Company is the most complete provider of professional grade electrical component and systems solutions for growing industrial companies throughout the Midwest. Lakeland distributes industrial electrical equipment, electrical control components, solenoid valves, electrical enclosures and many other electrical products from leading suppliers like Honeywell Sensing and Control (MicroSwitch), ASCO, Delta Fabricating and ABB. But we're much more than a distributor. We can work with you to provide everything from engineered electrical control panels and custom microprocessor systems to PLCs, tailored SCADA software development, and industrial computers.

### Motor Controls

With extensive lines from Schneider, ABB, GE, Cutler-Hammer and more, Lakeland is recognized as a true leader in motor controls.

### Motor Speed Controls

Lakeland provides variable speed motor controls from top suppliers like Lenze, Yaskawa, Schneider Electric and ABB.

### Electrical Enclosures

Custom, standard, non-metallic, and explosion proof electrical enclosures assure the protection of electronic controls, instruments and components.

### Process Instrumentation and Controls

Whether you need a single instrument or a complete instrumentation package, Lakeland offers a unique portfolio of products that satisfy a wide range of demands.

### Sensing Devices

We provide industrial sensing solutions from suppliers like Honeywell, P+F, ABB Jokab, Telemecanique and Turck and Banner. Count on Lakeland for all of your collision-avoidance, safety, position, level and speed-sensing needs.

Lakeland takes great pride in its wide range of industry-leading electrical components. Over our 65-plus-year history, our team of professional engineers, technicians and account managers has worked tirelessly to cultivate relationships with the very best suppliers from around the world.

## SUPPLIERS

### Honeywell

50,000+ "MicroSwitch" products with complete offering of switches and sensors

Standard and custom enclosures, weldments, frames and wireway

Motor controls, VFDs, sensing devices, automation controllers, PLCs and SCADA software

Fluid control, RedHat solenoid valves, miniature valves, cylinders and actuators

### Lenze

Motion control solutions, servo motors, components and systems

Electrical control and protection, motor control drives and VFDs

Sensors, measurement, instrumentation, interface and networks

Photoelectric and wireless sensors, machine safety products

DC motor controls and custom microprocessors, ground pile and bin temperature management

AC drives and motion control products

Industry leader for DIN-rail mounted, switched-mode power supplies

Plugs and receptacles with exclusive safety features to protect from arc flash

HMI products, process controls, panel meters, sensors and industrial ethernet

Cutler-Hammer

Motor controls, VFDs and circuit protection devices

Explosion proof enclosures

HMI's, PLCs, power supplies, motor control products, sensors, relays and pilot devices

Non-metal electrical enclosures and junction boxes

RFID, barcode scanners photoelectric and proximity sensors

Filterfans, cooling units, chillers, heat exchangers and more

Low voltage energy performance, switching and protection
